PROFILE:

I am a Mechanical Engineering graduate with a strong passion for designing and optimizing devices. My skills have been honed through hands-on projects, allowing me to develop practical solutions. Driven by motivation and a results-oriented mindset, I am committed to professionalism and continuous learning. I have a keen ability to grasp complex concepts quickly and a strong eagerness to explore innovative ideas, pushing the boundaries of technology through mechanical solutions.

EDUCATIONAL QUALIFICATION:

Bachelor of Technology in Mechanical engineering

Mahatma Gandhi Institute of Technology, Hyderabad

2021-2024

Current Cgpa: 7

Diploma in Mechanical,

Govt. polytechnic, Warangal

2018-2021

CGPA: 9.25

ZPHS Indiranagar,

2013-2018

SSC CGPA: 9.3

TECHNICAL SKILLS:

AutoCAD, Fusion 360, SolidWorks

Computational Analysis:

ANSYS (Thermal Analysis)

MATLAB

Programming: Python

ADDITIONAL SKILLS:

Graphic Design & Multimedia Tools:

Canvas, Blender, Adobe Premiere Pro

Artistic Skills:

Portrait Art

PROJECTS & INTERSHIPS:

Thermal analysis of fins in the manufacturing of batteries -Major project,2024

-Designed (Fusion 360) and analyzed (ANSYS-Thermal Analysis)

-Experimental Analysis on Battery

Study of weld properties on butt joint by using arc welding process -Mini project,2023

- Welding and testing

Design and fabrication OF wind turbine -Major project, 2021

-Designed in AutoCAD.

-Fabricated the prototype using conventional methods.

6 months of industrial training in "GREENHONDA" Warangal.

Internship experience at "GIGA ROBOTICS"

ACHIEVEMENTS AND AWARDS:

Gold medal

Achieved gold medal for outstanding academic performance at college, demonstrating strong commitment to excellence and dedication to achieving success.

Secured State rank 62 in ECET 2021
